

ILT FOUNDATION POLICY

GRANT ACCOUNTABILITY POLICY

POLICY REVISED: 19 April 2018

This policy is applicable to all SUCCESSFUL grant applications made to the ILT Foundation for the distribution of net proceeds from the Class 4 gaming venues where ILT Foundation is the holder of the Operators Licence.

Introduction

This policy is applicable to all successful grant applications made to the ILT Foundation for the distribution of net proceeds from the class 4 gaming venues where ILT Foundation is the holder of the operators licence.

ILT Foundation was incorporated under the Charitable Trusts Act 1957 on the 9th day of August 2005. The Foundation was established primarily for charitable purposes. It distributes gaming machine profits back to community organisations that fall within the definition of authorised purposes.

Pursuant to Gambling Act 2003, ILT Foundation must distribute the net proceeds from its gaming machines only for authorised purposes specified in its licence. It must also comply with the terms of its Trust Deed.

The Gambling Act 2003 and subsequent regulations state that grants must be used for the benefit of the community. To comply with the legislation, the Foundation is required to have a policy that follows up the grants made to ensure that grantees are accountable for the monies received.

Grants Policy

The Grants Policy for ILT Foundation denotes how grant payments are made and how grant accountability should be returned, the relevant sections are reproduced below.

The Grants Policy will be followed by the employees of the ILT Foundation. In addition to the Grants Policy this Policy will be followed to ensure that the grant accountability is dealt with correctly.

Grant payments

Successful recipient organisations will receive payment by cheque with their success notification letter, or at the discretion of the Manager or by Board directive; a grant cheque may be issued at a later date. Alternatively the grant may be deposited into the recipient organisation's bank account.

Accountability

Section 5.7 (Grants Policy)

Recipient organisations will provide the appropriate accountabilities to prove grant monies have been expended as per the specified project.

Any outstanding grant accountability information will mean any further applications by the recipient organisation will not be considered (except under exceptional circumstances) until such information or explanation why the outstanding information has not been received by the ILT Foundation.

Section 5.8 (Grants Policy)

In the event of non-compliance with any conditions of a grant, an equal amount of the grant is immediately repayable by the recipient organisation to the ILT Foundation.

Multi Year grants for major projects have specific reporting criteria, as set out in the Multi-Year Grant Policy.

Procedure where accountability is received

The following procedure will be taken into immediate practice where grant accountability has been received from the recipient organisation:

1. A grant database search will be initiated to identify the organisation who has received the grant to verify the purpose and amount of the grant.
2. Management will check receipts and other evidence of expenditure to ensure that the grant was not used retrospectively and that the entire amount of the grant has been spent on the approved project.
3. If a grant was used retrospectively, or not fully utilised, contact will be made with the grant recipient detailing the inconsistencies and the action required. This may be to provide more evidence or return part of, or the entire grant amount.
4. If after a month of sending out this request letter no reply is received then action will be taken as at Number 3 of the next section, **Procedure where accountability not received.**

If, at any time, there are any allegations of fraud or other potential criminal acts uncovered the Department of Internal Affairs will be informed and the matter will be reported to the police.

Procedure where accountability not received

The following procedure will be taken into immediate practice for checking outstanding grant accountability:

1. A grant database search and manual inspection of each organisation's application will be initiated on a monthly basis to identify those organisations that have received a grant 6 months earlier and have not returned accountability.
2. Recipients will be written to asking for an update on the project and reminding them that if the project is complete they should forward to the ILT Foundation office their accountability documentation.
3. If, after a month of sending out the initial "update" letter no reply is received, the grant recipient will be phoned and/or written to again advising that we have not received a reply from them. They will again be advised that it is a requirement of Department of Internal Affairs that grants are accounted for in full. Failure to do so will result in us asking for the grant money back.
4. If there is no reply to this letter then a phone call and/or personal visit by the Manager may be initiated.
5. If all the above actions fail the matter may be put in the hands of a debt recovery company. At the same time the Department of Internal Affairs will be informed of the issues of the grant and steps we are taking to recover the money.
6. If all of the above steps fail we will consider the final step to take the recipient to court in order to obtain a court order to recover the money.

If, at any time, there are any allegations of fraud or other potential criminal acts uncovered the Department of Internal Affairs will be informed and the matter will be reported to the police.

Grant/Scholarship Accountability Form

Included below is a copy of the grant/scholarship accountability details that is attached to each successful grant/scholarship applicant's letter, plus the grant/scholarship accountability form.
